**Terms of Business**

**Nursery opening hours:  
Monday - Saturday 9am - 1pm / 2pm - 5pm**

**CLOSED SUNDAYS!**

**Mail orders are accepted on a payment with order basis only.**

**Grafted Varieties are despatched 12 months of the year, subject to availability.**

**In the unlikely event of a chosen variety being unavailable we shall substitute the nearest available, unless instructed otherwise**

**All plants listed have been produced on the nursery.**

## One Year Grafted & Names Varieties

One the following pages are the varieties we offer as young plants. At the nursery we have the considerable numbers of larger plants up to eight feet, although not all varieties in the larger size.

The size of the one year grafts when dispatched vary form 6 to 18 inches depending on variety. Some varieties will attain 30 inches in the first year.

Below is the key to the codes after each variety name:

- 1 = 2-3
- 2 = 3-7
- 3 = 7-13
- 4 = 13-20
- 5 = 20-30

Mature height can seem alarming in some of the above, but it must be remembered that the maple is a fairly long lived tree which will grow quicker in the early years, and then slowly reach the mature height. As a guide you could assume that the tree will attain about half of the first figure in ten years.

### Growth Habit & Features

<b>A</b>	<b>Autumn Colour</b>	<b>S</b>	<b>Spreading, pendulous / weeping</b>
<b>C</b>	<b>Spring Colour</b>	<b>Sh</b>	<b>Shade recommended</b>

### Prices of young grafts, carriage & packaging

The Acer grafts are priced @ £7.75 each, with carriage & packaging charged as follows:

<b>1 Plant</b>	<b>£2.75</b>	<b>2 plants</b>	<b>£3.75</b>	<b>3 plants</b>	<b>£4.75</b>
<b>4 Plants</b>	<b>£5.75</b>	<b>5 plants</b>	<b>£6.75</b>	<b>6 plants</b>	<b>£7.75</b>

**7 plants and over by carrier £12.00**

**Most Varieties can be supplied as 2yr plants in a 1ltr pot at £13.50 inc p & p.**

**Acer Japonicum Varieties**  
**Shirasawanums**

**Aconitifolium 5-S-O**

The fern leafed maple. Large multi-divided and deep cut leaves with striking flame red autumn foliage.

**Aureum 3-Sh-O**

Much sought after spectacular butterfly yellow foliage with orange/red autumn tones.

**Autumn Moon 3**

Bronze orange in summer and rich orange in autumn, a robust form of Aureum.

**Ezono Moniji 3-U**

Large bright yellow/green leaves in spring, green in summer, golden/red in autumn.

**Gloria 5-U**

The deeply divided leaves are a dark purple turning lighter in the summer.

**Green Cascade 2-M-Sh**

Pendulous habit with well defined lace like rich green leaves with brilliant orange/crimson colour in autumn.

**Meigetsu 5-S**

Green in the summer, red/gold in the autumn.

**Microphyllum 4-U**

Fresh green leaves in the summer turning yellow/golden in the autumn.

**Oguryama 4-S-A**

Green/yellow in the spring, autumn colours of bright crimson/orange.

**Palmatifolium 5-A**

A good form with green leaves in the summer. The autumn colour is a striking yellow/golden shade with red.

**Vitifolium 4-S-A**

Large vine like green leaves, splendid autumn colour of bright red.

## Acer Palmatum Varieties

### Akane 3-C

A slower growing form of Katsura with a more intense orange spring colour turning light green in the summer then orange/yellow in autumn.

### Akegarasu 4-U

Large purple leaves becoming green/bronze in the summer. A strong upright form.

### Aobo Jo 2

A dwarf form with larger than normal leaves, green with brick red edges turning yellow & red in the autumn.

### Aoyagi 4-U-O

The green version of Senkaki, wood turning bright green in the winter.

### Arakawa 4-U-O

"The rough bark maple" Main feature is it's unique corky bark. Good autumn colour.

### Ariadne 3-O-Sh

A member of the reticulatum group with a mixture of red, pink & orange markings on the leaves turning purple with red veins in the summer.

### Ariake Nomura 5-U

A narrow growing form, dark purple in the summer and bright scarlet in the autumn.

### Asahi Zuru 4-U-Sh

Spring growth pink/white/green, summer medium green with strong irregular white marking.

### Aureum 3-U

Golden spring foliage with bright yellow autumn show.

### Autumn Glory 3-U-A

Good form with excellent crimson autumn colours.

### Autumn Red 3-A-O

Forms a small tree with light green foliage in summer & fiery crimson in autumn.

### Azuma Murasaki 4-S

Purple/red serrated leaves becoming red/green in the summer.

### Beni Chidori 2-O-Sh

A small leafed variety, spring colour orange/red fading to a yellow edge

**Beni Kawa 4-U**

One of the Senkaki group, slower growing than Sango Kaku with a good bright yellow autumn colour.

**Beni Komachi 2-U-S-O**

Small bright crimson leaves in spring, green with red margins in summer, orange/scarlet in autumn.

**Beni Maiko 3-US-C**

Bright red in spring, green in the summer and orange/red in autumn.

**Beni Otaki 3-US-A**

Deep cut narrow lobed foliage, deep purple/red in the summer, crimson in autumn.

**Beni Schichihenge 2-US**

Leaves vary in shape, colouring is green with white & orange/pink. Probably the best small leaved variegated form.

**Beni Tsukasa 2-US-O**

Leaves small and bright yellow/red in spring turning pink/red then mottled green in autumn.

**Bloodgood 4-U**

Excellent vigorous large leaved tree, one of the best deep red forms.

**Boskoop Glory 5-U**

Spring leaves are pink/red turning deep red in the summer and then red/green in early autumn.

**Burgundy Lace 3-S**

Striking deeply divided leaves, sharply toothed along edges, burgundy/red colour.

**Butterfly 3-US-O**

Attractive small leaved shrub with cream on pale green variegation.

**Chikumane 3-O**

A good strong purple in summer turning orange in autumn. This cultivar has unusually large leaves for a palmate.

**Chitoseyama 2-S-C**

Deeply divided large leaves with slender lobes and serrated edges. Purple/red in the summer & bright crimson in autumn. Large pendulous bush.

**Coonara Pygmy 2-US-A**

A compact multi-branched form with attractive foliage, bright orange in the autumn.

**Coral Pink 2-Sh-C**

Light coral pink in the spring turning green with off white mottling in summer. A slightly tender cultivar.

**Corrallinum 3-US-C**

Outstanding shrimp-pink spring foliage fading to mottled green in the summer with brilliant scarlet autumn tones.

**Crispa or Okushimo 3-U-O**

The upright growth & curled edges to the small leaves are the outstanding feature. Bright green in summer & orange/gold in autumn.

**Deshojo 3-S-C**

The original form of Shindeshojo, having all the same colour changes.

**Fire Glow or Effigy 3-US**

Large deep purple/red leaves with crimson autumn colour.

**Elegans 3-S-A**

Leaves deeply divided with serrated edges, green in the summer & bright orange in autumn.

**Elegans Purpureum 4-U**

Dark purple leaves in spring turning greenish bronze in the summer, crimson in autumn.

**Gibbsii 3-SU**

Similar to Bloodgood with smaller leaves & habit, crimson in autumn.

**Green Trompenberg 5-S**

Leaves have rolled edges as in Trompenberg, orange/yellow in autumn,

**Hagoromo 4-U**

Distinctive leaves deeply serrated in feather like divisions. Green in the summer & orange/red in the autumn.

**Herbstfever 4-A**

Green in the summer with an outstanding autumn colour of bright orange.

**Higasayama 4-U-O**

Small leafed variegated with cream border, spectacular in spring as new leaves unfurl pale yellow and brilliant crimson.

**Hanami Nishiki 2**

A slow and dense growing form, green in the summer & yellow in autumn.

**Ibo Nishiki 3-O**

Similar to Arakawa and Nishiki Gawa but slower growing. Green in the summer with autumn tones of orange & red.

**Ichigyoji 4-U-A**

Practically identical to Koreanum, with autumn colours of intense yellow/orange.

**Inazuma 3-S**

Deeply divided toothed lobes. Rich deep purple in summer & red/crimson in autumn. Medium pendulous tree.

**Issai Nishiki 2-US-O**

A dwarf form of Nishiki Gawa.

**Kagiri Nishiki or Roseo Marginata 2-US-O**

Small variegated leaves with white margins blended with pink or rose colours.

**Kamagata 2-US-O**

Long narrow deeply divided leaves, rusty red spring foliage, rich green in the summer & bright yellow/orange in autumn. Dwarf compact habit of delicate appearances.

**Karasugawa 3-US-Sh-O**

New growth is bright pink becoming variegated , similar to Asahi Zuru. Spectacular plant, needs protection.

**Kasaqiyama 2-US-O**

Unusual brick red leaves with dark veins, lobes well separated, mottled crimson in the autumn.

**Kasen Nishiki 3-US**

A good form with subtle variations of cream on green.

**Kashima 1-S**

Dwarf form, light yellow/green in spring in the summer and yellow in autumn.

**Katsura 2-S**

Small leaves of marmalade orange spring foliage, rich green in the summer bright yellow/orange in autumn.

**Kinran 3-S**

Deeply divided lobes, rich purple/red with contrasting green veins, gold and crimson in autumn.

**Kiyohime 2-S-C**

Light green small leaves edged with orange/red in spring, rich green in the summer and yellow/orange in autumn.

**Kogane Nishiki 5-A**

A vigorous growing cultivar. Good green in the summer & bright golden in autumn.

**Komachi Hime 2-C**

Green leaves edged with red in spring, a small compact growing dwarf.

**Komon Nishiki 2-O**

A subtle variegated form with light pink on green in spring turning green speckled with small spots of white/cream in summer.

**Koreanum 5-U-Sh-A**

Bright green foliage, yellow/orange/red in the autumn.

**Kurabu Yama 4-S**

A spreading shrub with green leaves in the summer and a good autumn colour of yellow/orange.

**Linearilobum 2-U**

Green version of Linearilobum Atrolinear, slightly more vigorous, large dense attractive shrub.

**Linearilobum Atrolinear 2-U**

Long narrow strap like leaves, spring foliage is purple/red and bronze in the summer, crimson in autumn.

**Linearilobum Kinshi 2-US**

Green Linearilobum type foliage compact growth, orange/yellow in autumn.

**Linearilobum Koto Ito Komachi 1-M-Sh**

Outstanding feature is the very fine green Linearilobum leaf shape.

**Linearilobum Red Pygmy 2-S**

Spectacular ribbon like leaves bright crimson/red in summer and golden in autumn.

**Linearilobum Villa Taranto 3-S-O**

Bright green leaves overtone with light red/bright gold in the autumn.

**Little Princess or Mapi No Machihime 1-US-O**

Small leafed dense shrub, spring foliage bright orange/yellow with red margins becoming rich green, gold/yellow in autumn.

**Lutescens 4-U-A**

Spring growth of green/yellow, light green in the summer, gold/yellow in autumn.

**Maiko 3-US-O**

The smallest leaves of this plant are of interest due to the irregularity of their size and shape . Yellow/green in summer & yellow in autumn.

**Mama 3-US-O**

Similar to Maiko but leaves more irregular so no two seem the same. Green in the summer and yellow/orange in autumn.

**Masumuraski 3-U-C**

Very intense red/purple well defined lobes with serrated edges.

**Matsu Kaze 3-S-C**

Deep cut red form with serrated edges to the elongated leaves, spring foliage is bronze/red, rich carmine in autumn.

**Mikawa Yatsubusa 1-M**

The leaves of this dwarf cultivar overlay themselves like tiles on a roof. The leaves are light green with some red on margins.

**Mirte 5**

Leaves are bronze with green veins in spring turning olive green in the summer with autumn tones of orange/yellow.

**Mizuho Beni 3-C**

Similar in habit and colour to Katsura it does however come into leaf later so is less exposed to the cold wind and frost.

**Murasaki Kiyohime 1-US**

A member of the Yatsubusa family with bright green new foliage margined with purple in summer, gold/orange in autumn.

**Mure Hibari 3-S**

Light green leaf colour with brick red margins turning yellow/crimson in the autumn.

**Murogawa 4-S**

Green/purple in the summer turning bright red/orange in autumn. In older plants the branches will weep to the ground.

**Nishiki Gawa 4-U-O**

The rough pine like bark is the outstanding feature of this cultivar, light green in spring and strong orange/red in autumn.

**Nicholsonii 3-S-A**

Medium shrubby tree, green in the summer, brilliant gold/crimson in autumn.

**Nomarushidare 3-S**

Rich purple/red in summer and bright crimson in autumn.

**O'kagami 3-S**

Large leafed magnificent glossy blackish/red foliage in the summer, brilliant fiery scarlet in spring and autumn.

**Omuryama 3-S-A-O**

A spectacular having pendulous branches with age like a weeping willow, leaves are deeply divided and a brilliant green, gold/crimson in the autumn.

**Orange Dream 2-S-O**

Orange/yellow in spring turning yellow/green in the summer and yellow in autumn.

**Orido NishikiUI 3-U-Sh-C**

Overall colour is a deep green and the variegations are very divers, spring new growth is a mix of white, cream and bright pink.

**Osakazuki 4-U-A**

One of the best for autumn foliage, rich dark green in summer turning intense crimson in the autumn.

**Oshu Shidare 3-S**

Similar growth to Omuryama except dark purple in the spring, bronze/purple in summer and crimson in autumn.

**Oshio Beni 4-U-Sh**

Bright red new growth turning to bronze with bright red autumn tones.

**Oto Hime 2-C-S**

Similar in colour to Kiyohime but the growth habit is tighter, as a mature plant it is very much wider than its height.

**Otome Zakura 3-C**

Similar to Shindeshojo but with a deeper blood red spring colour.

**Peaches & Cream 3-Sh**

A member of the Shigatatsu Sawa group with cream and rose leaves in spring, staying pink edges through the summer and turning yellowish in autumn. A delicate form.

**Pixie 2**

Forms a dense bush with deep purple leaves in summer turning crimson in autumn.

**Ryoku Ryu 2**

A semi dwarf form with deeply cut long leaves. Green in the summer and yellow in autumn.

**Sagara Nishiki 3-US-Sh**

A Variegated form with shades of pale yellow.

**Samurai Aka Shigatatsu Sawa 3-U-Sh-O**

Leaves are veined white, green and pink and in early autumn they are red/maroon.

**Sazanami 4-A**

The deeply divided leaves are green in the summer turning bright golden in the autumn.

**Saoshika 3-US-A**

Pale green in spring with red margins, golden/yellow in autumn.

**Satsuka Beni 3-C**

A strong growing form with fine red edges to the green leaves in spring turning bright red in autumn.

**Seigen 2-S-C**

A small leafed plant with bright red foliage in spring, green in summer and yellow/orange in autumn.

**Sekka Yatsabusa 3-O**

A vigorous growing form of Mikawa Yatsubusa.

**Senkaki or Sango Kaku 4-U-O**

Coral bark maple. Brilliant coral bark in the winter, attractive green foliage in the summer.

**Shaina 2-US**

Forming a dense dwarfish shrub with bright red new growth maturing to maroon.

**Sharps Pygmy 2**

A very dwarf cultivar which is green in the summer and orange/scarlet in the autumn.

**Sherwood Flame 4-S**

Good red foliage plant similar to Burgundy Lace.

**Shigatatsu Sawa 3-U-Sh**

Attractive unique green veined leaves interspersed with yellow and cream, red/green autumn foliage.

**Shindeshojo 3-S-C**

Brilliant spring foliage of bright scarlet or crimson/scarlet. Reddish/green in summer and red/orange in the autumn.

**Shishigashira 2-US**

Tight compact growth and bright crinkly leaves. Autumn colour orange/crimson.

**Shishio or Chishio 2-S-C**

Foliage is like Shindeshojo but more orange/red with smaller leaves and it makes a small dense bush.

**Shishio Improved 3-S-C**

Brighter foliage than Shishio and slightly larger leaves with more vigour.

**Shojo Nomura 4-S**

Purple/red in the spring, green/red in summer.

**Skeeters Broom 4-A-US**

An upright growing form, light red in the spring turning deep purple/red in the summer.

**Suminagashi 4-S**

Well separated lobed leaves, bright red in spring, deep maroon in the summer glowing red in autumn.

**Superbum 4-U**

Similar to Bloodgood but less densely branched and a brighter red in the summer.

**Takao 5-A**

A vigorous growing form with a good yellow/gold autumn colour, green in the summer.

**Tamahime 2-S-A**

Small light green leaves in spring, rich green in the summer and red/crimson in the autumn. Dense bush.

**Tana 2-M**

Light green leaves, tips tinged with purple gradually fading to green, golden yellow in autumn.

**Tatsuta 3-S**

An open growing plant, light green in summer and bright crimson in autumn.

**Tenno No Hoshi 4-U**

A strong growing form with small leaves lightly variegated with cream over a green background.

**Trompenburg 3-U**

Attractive dark purple leaves with edges rolled down, crimson in the autumn.

**Tsuchigumo 2-US**

Young leaves are a rusty red/green in summer and crimson/yellow in autumn.

**Tsuma Beni (red nail) 2-S-C**

Beautiful spring foliage with purplish red tips on light green foliage, red in autumn.

**Tsuma Gaki 2-S-C**

Almost identical to Tsuma Beni except ;eaves droop as they open.

**Tsuri Nishiki 3-S-A**

Deep green ;eaves edged with red in summer, fiery autumn colour of yellow, orange and red.

**Ueno Homare 4**

A light green in summer turning yellow/orange in autumn.

**Ukigumo 3-US-Sh-C**

Outstanding variegated foliage of light green freckled and blended with pink and white.

**Ukon 2-US**

Yellow in spring turning green with yellow marbling in summer, yellow/orange in autumn.

**Volubile 4-U**

Bright green in spring, darker green in summer, orange/red in autumn.

**Wabito 2-S-O**

Spring and summer green with red margins, autumn colour is a strong red.

**Waka Midori 3**

Compact growing with small green leaves, yellow/orange in autumn.

**Whitney Red 5**

A good strong red/purple colour in spring with a bright scarlet autumn colour.

**Wilson's Pink Darf 1-US**

A spectacular bright pink in spring fading to green in summer.

**Wou Nishiki 2-US**

New growth is yellow/green then green with red margins fading in summer and crimson in autumn.

**Yasemin 5**

Similar to Trompenberg but with flatter leaves. Strong purple in summer and red in autumn.

**Acer Palmatum Dissectum Varieties**

Except for Seiryu, all of the dissected leaf forms from a mound shaped small shrub with cascading foliage of delicate appearance with multi-divided leaves.

**Atropurpureum 2-M**

Good red foliage fading in summer with greenish veins on leaves.

**Crimson Queen 2-M**

Deep red/purple foliage all summer and fiery scarlet in autumn,

**Ever Red 2-M**

Excellent red form holding colour well, bronze late summer and bright red in autumn.

**Filligree 2-M-Sh**

Fine lace like foliage, light green in summer and a rich gold in autumn.

**Flavescens 2-M**

Distinct yellow/green spring foliage, light green in summer and yellow autumn tones.

**Garnet 2-M**

Vigorous plant holding its rich red colour through the summer. Red in autumn.

**Goshiki Shidare 2-M-O-Sh**

Red/green leaves variegated with shades of cream and pink, foliage colour may vary form year to year.

**Inaba Shidare 2-M-O**

Outstanding large deep purple/red leaves, vigorously growing all summer crimson in autumn.

**Kiri Nishiki 2-M**

A more substantial green form, intense gold in autumn.

**Lionheart 3-S-O**

Strong growing maroon/red form, slightly more upright when growing fast, becoming more pendulous with age, good autumn show.

**Orangeola 2-M**

A strong growing Dissectum, opening orange/red in spring, turning red/brown in summer and then a bright orange/red in autumn.

**Ornatum 2-M**

Bronze/red in spring turning green in summer and an intense gold in autumn.

**Palmatifidium 2-M-A**

"The Eagle Claw Maple" coarser foliage, brilliant green in the summer and yellow/gold in autumn.

**Red Dragon 2-M**

Deep purple/red colour maintained well through summer, bright crimson in autumn.

**Red Filligree Lace 2-M-Sh**

Having the finest almost impossibly, dissected foliage of dark purple/red through the summer.

**Seiryu 3-U-O-A**

Unique dissected form having upright growth with bright green foliage forming a small dense medium tree, spectacular autumn colour of gold and crimson.

**Tamukeyama 2-M**

A good dark purple form similar to Crimson Queen but faster growing, bright scarlet in autumn.

**Toyama Nishiki 2-M-Sh-O**

Basic leaf colour of purple/red to green/red, some leaves may be completely pink as they open, foliage will vary.

**Virides 2-M**

The best known elegant green form, gold/crimson in autumn.

**Zaaling 2-M**

A fast growing green form with orange/red autumn tones.

**Other Types and Forms**

**Campestre Carnival 3-US**

A variegated form of cream, white and green.

**Campestre Pulverulentum 3-US**

Leaves thickly speckled and blotched with white.

**Circinatum Monro 3-US**

A dissectum appearance to the leaves, green in the summer with yellow autumn tones.

**Pentaphyllum 3-A-U**

Looks like a *Linearilobum* but grows into a large tree. Green in the summer with spectacular autumn colours.

**Rubrum October Glory 5-U-A**

Fiery autumn colour.

**Rubrum Schlesinge 5-U-A**

Rich deep scarlet autumn colours.

**Sieboldianum Sode No Uchi 3-US**

Green/yellow in spring, dark green in the summer and gold/red in autumn. Dwarf shrub.

## **Cornus**

The following list form the Cornus Florida group and represent the most spectacular of the flowering trees and shrubs available to gardeners. The term flowers is used to describe the showy display but are in fact bracts, the true flowers are 1/2" – 3/4" across in the centre of the "flowers". They also have consistently excellent autumn colours. Most will mature into a small low-branched tree.

### **Apple Blossom**

Light pink flowers shading to white in the centre.

### **Bodnant**

Free flowering overlapping white bracts.

### **Cherokee Chief**

Flowers rich ruby-red. One of the most popular red bracted forms.

### **Cherokee Brave**

Reddish pink (burgundy) flower with a white centre.

### **Cherokee Sunset**

Variegated form with irregular yellow margins and red flower bracts.

### **Cloud 9**

Showy white overlapping bracts, profusely flowering when young.

### **Eddies White Wonder**

Large white flowers with pendulous habit.

### **First Lady**

Striking variegated yellow/green foliage with white flowers. Enjoys the sun.

### **Rubra**

Red/pinkish red flowers.

### **Gold Spot**

Large leaves with random gold spots and heavy crops of large white flowers.

### **Gold Star**

Excellent form with strong gold centre to the leaves and white flowers.

### **Lady Glory Brikett**

Creamy/white flowers turning pale pink. Said to be an improvement on Norman Haddon.

**Monark**

Vigorous grower with creamy white flowers.

**Ormondii**

A narrower plant than eddies white wonder with heavy quantities of large broad white flower bracts.

**Satomi**

One of the best rose pink forms holding its colour in all conditions.

**Spring Day**

Pale pink on margins and base of the flower.

**Spring Song**

Deep rose red flowers.

**Stokes Pink**

Clear pink flower bracts.

*They are priced at £6.25 each.*

**Cornus Alternifolia Argentea**

The leaves are small and delicate edged white, makes a dense shrub.

**Cornus Controversa Variegata**

"The wedding Cake Tree". Spectacular variegated layered branches.

*Both priced at £7.75.*

**Liquidamber**

Beautiful trees that are grown for their foliage and autumn colours.

**Alomarginata**

Striking white edged leaves.

**Formoseana**

Three lobed dark green leaves, red tinted in the spring and yellow in the autumn.

**Gumbol**

Dwarf multi-stemmed shrub, rounded at the top.

**Lane Roberts**

Reliable autumn colour of rich black crimson/red.

**Orientalis**

Bushy headed tree, five lobed toothed leaves, slow growing, fragrant resin called Liquid Storax, made from the inner bark.

**Parasol**

Attractive and unusual weeping form.

**Worlporston**

Unique narrow lobed leaves. Spectacular apricot/orange autumn display.

*The above are priced at £5.50 each*

**Hamamelis**

Unique family of early flowering scented shrubs

**Arnold Promis**

Large clear yellow scented flowers.

**Diane**

One of the best red flowering forms, faintly fragrant.

**Jelena**

Excellent in lower, glows like copper from a distance, sweet faint scent.

**Mollis**

Yellow, fragrant with long lasting flower.

**Pallida**

Soft sulphur yellow flowers, profusely borne, sweetly fragrant.

**Primavea**

Primrose yellow with a sweet scent. Exceedingly floriferous.

**Ruby Glow**

Coppery red flowers with a weak fragrance.

*All of the above are priced at £6.50 each*

## **Hibiscus**

**Valuable late flowering shrub**

### **Blue Bird**

**Violet/blue with darker blue eye.**

### **Elegantissima (lady Stanley)**

**White/blush pink, moron base, semi double.**

### **Hambo**

**Single pale pink flower with red spot.**

### **Pink Giant**

**Large clear rose pink flower with rich burgundy blotch.**

### **Red Heart**

**Single white flower with red centre.**

### **Roseus Pienus**

**Double wine/purple flower.**

### **Totus Albus**

**Single white flower.**

*All of the above are priced at £4.50 each*

## **Fagus (Beech)**

**Beautiful diverse family of trees, one to be found for all planting needs.**

### **Black Swan**

**Spectacular purple weeping form.**

### **Comptonefolia**

**A slow grower with abundant cut fern like leaves.**

### **Dawyck**

**Rigidly columnar in habit.**

**Dawyck Gold**

Narrow/columnar in habit with golden yellow leaves in spring and autumn.

**Frankin**

Spectacular white / cream variegation.

**Heteropaylla**

"Cut Leafed Beech". Effectively large ornamental tree.

**Mount Fuji**

Popular bonsai subject.

**Obelisk**

Lightly cut undulating leaves, upright habit.

**Ovalifolium**

Small rounded leaf, upright habit.

**Pendula**

Spectacular large weeping tree.

**Pendula Purpurea**

Makes a small round headed purple leafed tree.

**Purple Fountain**

Narrow upright growth with branches hanging down close to the main trunk.

**Red Obelisk**

Compact columnar form with dark purple dissected leaves.

**Rohanii**

Purple cut, slightly crinkled leaves.

**Roseomarginata**

Purple leafed form with irregular rose and pinkish boarder.

**Striata**

Unusual Zebra striped green leaves, small growing.

*All the above are priced at £5.50 each*

**Wisteria**

**Alba**

Snow showers, flowers up to 2ft long. Fragrant.

**Blue Sapphire**

Violet / purple flowers and fragrant.

**Caroline**

Strong grower with blue/violet flowers

**Pink Ice**

Soft pink flowers.

*All of the above are priced at £6.50 each*

**Other young Plants**

**Catalpa Bignonioides Aurea**

"Indian Bean Tree". Large soft yellow leaves.

**Cercis**

"Forest Pansy". Handsome purple leaves.

**Cytissus Baattandieri**

Silky grey leaves, cone shaped bright yellow flowers scented like a pineapple.

**Gleditsia Sun Burst**

Golden leaves in spring fading to bright green.

**Liriodendron Tulipifera Aureomarginatum**

Leaves margined with yellow or greenish yellow.

**Robinea Frissia**

Leaves of a golden yellow colour, holding colour well all year.

**Tilia Winter Orange**

Spectacular orange wood in the winter

**Zelkova Serrata Variegata**

Small leaf with white rim around the margin.

*All of the above are priced at £6.00*

## **Conifer Grafts**

### **Abies Lasioarpa Glauca Compacta**

Slow growing shrub of compact conical habit.

### **Abies Nordmaniana Golden Spreader**

A dwarf, slow growing cultivar with spreading branches of light yellow foliage.

### **Cedrus Atlantica Glauca**

"Blue Cedar". Spectacular tree for specimen planting.

### **Cedrus Deodora Aurea**

"Golden Deodora"

### **Cedrus Deodara Golden Horizon**

Semi Prostrate form.

### **Cedrus Roman Candle**

Cram tips on spring growth.

### **Cupressus Glabra Blue Ice**

Spectacular blue foliage.

### **Cupressus Macrocarpa Lutea**

Strong growing golden tree ideal for hedging, withstands coastal planting.

### **Cupressus Sempervirens Swanes Gold**

A compact columnar for.

### **Picea Abies Reflexa**

Dense prostrate form.

### **Picea Abies Breweriana**

Weeping spruce.

### **Picea Orientalis Aureospicata**

The young shoots are a creamy yellow, spectacular shrub or small tree in the spring.

### **Picea Pungens Globosa**

Dwarf flat topped globular dense bush, glaucous blue leaves.

**Picea Pungens Edith**

The best blue spruce I have seen. Pale silver/blue leaves with a neat uniform habit.

**Pinus Mugo Gnom**

Small and compact with dark green leaves, forms a globular mound.

**Pinus Mugo Humpy**

Small dark leafed dense bush.

**Pinus Mugo Ophir**

Golden, slow growing into an upright dense form.

**Pinus Nigra Black Prince**

Heavy wooded dark green, chunky growing dwarf form.

**Pinus Radiata Aurea**

Excellent strong growing golden tree.

**Pinus Strobus Minima**

Dwarf slow growing form of a dense habit.

**Pinus Sylvestris Aurea**

A slow growing small tree with striking golden yellow leaves in winter.

**Pinus Sylvestris Beunronensis**

Miniature Scots Pine.

**Pinus Sylvestris Chantry Blue**

**Pinus Fastigiata**

Unique tight columnar form, the narrowest of any of the pines, often called "The Sentinel Pine"

**Pinus Gold Coin**

Slower growing than Aurea with bright yellow leaves in the winter.

*They are priced at £4.50 each  
Postage and packaging charges for all the previous listings of grafted  
plants can be found at the bottom of page 2.*

### **Bareroot Seedling**

Following is a list of seedlings comprising of Acer Palmatum and various other varieties of shrubs, trees and conifers, which we grow from seed. All seedlings are at least one year old and fully hardened, having been grown outside.

The Acer Palmatum varieties are priced In the listings.

The other seedlings are priced with a code as follows:

Price Code	Price Each
A	60p
B	80p
C	£1.00
D	£1.20

The cost of packaging and postage for all of the above is as follows:

Order Value	Postage
£4 - £9.90	£2.00
£10.00 - £19.90	£3.50
£20.00 & over	£4.50

*Minimum order value is £4.00*

### **Bareroot Acer Palmatum Seedlings**

	per5	per10	per20	per50
<b><u>Acer Palmatum Atropurpureum</u></b>				
100% purple form a good colour.

**Other One Year Old Seedlings****Sizes Approx**

D	Acer Buergianum	18"	Trident Maple
D	Acer Circinayum	9"	Vine Maple
D	Acer Ginnala	12"	Good Autumn Colour
D	Acer Hersii	18"	Snake Bark Maple
D	Acer Platanoides	12"	Norway Maple
D	Acer Rubrum	18"	Canadian Maple
C	Acacia Dealbata	6"	Mimosa
A	Berberis Darwinii	6"	Free flowering yellow shrub
A	Berberis Thunbergii	Atropurpurea 8"	Red/purple foliage
A	Betule Pendula	9"	Common Birch
B	Catalpa Bignonodies	12"	Indian bean tree

C	<b>Circidiphllum Japonicum</b>	6"	Small tree, pale yellow/pink autumn colour.
B	<b>Cercis Siliquastrum</b>	6"	Judas tree. Lilac flowers in may
C	<b>Cercis Canadensis</b>	10"	North American "red bud", flower pale rose.
B	<b>Chimonathus Fragrens</b>	6"	Winter sweet, winter flowering Shrub.
B	<b>Corodyline Australis</b>	8"	Exotic palm like with long sword like leaves.
C	<b>Corodyline Australis Purpureum</b>	8"	Form with purple leaves.
D	<b>Cornus Kousa Chinensis</b>	12"	Flowers with strawberry like fruit
B	<b>Corylus Avellana</b>	12"	Hazel nut
A	<b>Euonymus Europeus</b>	12"	Spindle berry, scarlet capsules
B	<b>Eucalyptus Gunnii</b>	4"	Silver blue leaves
B	<b>Fagus Sylvatica</b>	9"	Green hedging
B	<b>Fatsia Japonica</b>	4"	Very large polished dark green leaves.
B	<b>Hibiscus Syriacus</b>	8"	Late flowering trumpet flowers, various colours.
D	<b>Juglins Nigra</b>	18"	Black Walnut
D	<b>Juglins Regia</b>	8"	English edible walnut, valuable wood.
B	<b>Koelreuteria Paniculata</b>	18"	Golden rain tree
B	<b>Laburnum Anagyroides</b>	12"	Small flowering tree
D	<b>Liquidamber Styraciflua</b>	12"	Maple like leaves with the autumn colour.
D	<b>Liriodendron Tulipefera</b>	6"	Tulip tree
C	<b>Morus Alba</b>	9"	White Mulberry
C	<b>Morus Nigra</b>	9"	Black Mulberry
C	<b>Nandina Domestica</b>	3"	An extremely decorative bamboo like shrub.
C	<b>Phormium Tenax</b>	6"	Striking clumps of leathery leaves from 1" – 3" in length, flowers are red.
C	<b>Phormuim Tenax Purpureum</b>	6"	Leaves are a bronze/purple
B	<b>Robinea Pseudoacacia</b>	12"	False acacia, large tree with oriental look.
A	<b>Serbus Auocuparia</b>		Mountain Ash
B	<b>Tilla Cordata</b>	8"	The small leafed lime
C	<b>Trachycarpus Fortunii</b>	6"	Hardy palm with large fan like leaves.
B	<b>Ulmus Parviflora</b>	8"	Chinese Elm, small leaves
D	<b>Wisteria Sinensis</b>	6"	Chinese Wisteria, deep lilac flowers
B	<b>Zelkova Serrata</b>	12"	Graceful serrated leafed medium tree.
C	<b>Yucca Filamentosa</b>	4"	Dense shrubby plant with long narrow leaves.

Conifers

B	<b>Abies Koreana</b>	6"	Small tree with violet/purple seed cones.
B	<b>Abies Nordmaniana</b>	6"	Caucasian fir
B	<b>Cedrus Brevifolia</b>	4"	Small leafed slow growing form, rare
B	<b>Cedrus Deodara</b>	6"	Beautiful pendulous tree
B	<b>Cedrus Libanii</b>	6"	Cedar of Lebanon
A	<b>Cupressus Macrocarpa</b>	9"	Monterey cypress, fast growing.
B	<b>Cupressus Sempervirens</b>	8"	Italian cypress, columnar habit.
A	<b>Chamacyparis Lawsoniana</b>	8"	Good hedging plant
C	<b>Ginkgo Biloba</b>	8"	Maidenhair tree. A living fossil, sole survivor of ancient genus
B	<b>Larix Leptolepis</b>	9"	Japanese larch
C	<b>Metasequoia Glyptostroboidea</b>	6"	The dawn redwood
A	<b>Picea Abies</b>	8"	Norway spruce. The traditional Christmas Tree.
C	<b>Pinus</b>	6"	Japanese red pine
A	<b>Pinus Mugo Mughus</b>	3"	Small dense tree
A	<b>Pinus Mugo Pumilo</b>	3"	Semi prostrate dwarf form
A	<b>Pinus Nigra</b>	6"	Australian pine
B	<b>Pinus Radiata</b>	4"	Fast heavy growing tree
B	<b>Pinus Strobus</b>	4"	White, five needled attractive pine
A	<b>Pinus Sylvestris</b>	12"	Scots pine
C	<b>Pinus Tunbergii</b>	6"	Japanese
B	<b>Taxodium Distichum</b>	12"	Swamp cypress, beautiful deciduous conifer.
B	<b>Taxus Baccata</b>	4"	English yew, excellent hedging plant.

### **Hints on Growing Japanese Maples**

Japanese Maples are ideal subjects for container growing, with a few simple rules and minimal attention can be grown indefinitely in a restricted environment.

#### **Soil Types for Containers:**

Most commercial mixes are suitable being of a high peatmoss or bark mixtures as Acers prefer a well-drained medium.

#### **Fertiliser:**

**Do Not Overfeed!** Acers are not greedy feeders, excessive feeding particularly of a high nitrogen fertiliser will destroy the fine root system. A light spring dressing of one of the balanced fertilisers available will suffice.

#### **Water:**

Water is the most important item for a healthy content plant. Acers resent being aloud to dry out or become waterlogged. Letting them dry out will result in leaf drop and possible loss of the plant, and a waterlogged plant will result in the roots rotting and the almost certain loss of the plant. It is best to aim at an even level of moisture be it on the moist or dryer side and avoid any violent fluctuations. Do Not water foliage in the sunlight as leaf scorch will ensure. Water in the evenings or direct into the pot.

#### **Climate:**

Acers are surprisingly hardy given their delicate appearance. Most enjoying full sunlight exposure and all withstand cold to the roots as low as -9 deg C, and to the plant above the ground, below -18 deg C. If really excessive weather is expected a piece of sacking or similar material to lag the container is advisable. They grow wild in Japan where experience very cold but dry winters.

#### **Bonsai:**

The ultimate containerisation of a plant for which Acers are by there natural grace of growth and leaf types and tolerance of a restricted environment, one of the most ideal subjects. The purchase of a book to give the rudiments of what is basically a simple art of pruning and shaping, which is like all skills has to be learnt by practical experience.

#### **Open Ground Planting:**

Acers prefer a sandy loam but the perfect soil is seldom available but they will grow in richer heavier soils or poor sandy soils with appropriate conditioning, soils with a high PH are unsuitable unless neutralised. Whatever the soil conditions you have to cope with the rule on feeding and watering apply as in the container grown plants.
